

Cancer Prevention & Control in Northern New England: Comprehensive Cancer Control

Adriane Burke, MPH
*Cancer Programs Manager
NH Dept of Health
and Human Services*

Melanie Feinberg
*Health Program Manager
Maine Comprehensive
Cancer Control Program*

Sharon Mallory, MPH
*Director
Vermont Comprehensive
Cancer Control Program*

The northern New England states of Maine, New Hampshire, & Vermont host collaborative partnerships to address cancer across the continuum. In this session, you will learn about the work being carried out in each state to reduce the burden of cancer, including:

- State Cancer Plan development, core priorities, & target populations
- Cancer coalition structure & approach for facilitating cancer prevention & control actions
- Examples of collaborative activities supported by state comprehensive cancer control programs
- Plans for recovering, sustaining, & accelerating the momentum in cancer prevention, early detection, treatment, & survivorship for the next 5 years
