ABOUT THE SYMPOSIUM

The University of Maine, University of New England, Mount Desert Island Biological Laboratory, Jackson Laboratory, the Roux Institute, Northern Light Healthcare, and Maine Health are sponsoring a statewide research symposium covering biomedical sciences and engineering scheduled for October of 2022.

The symposium will highlight the research conducted at Maine's public and private academic institutions, healthcare systems, and private industry as it relates to biological and physiological disciplines, medicine, biomedical engineering, and data science. The event will take place at the University of New England Innovation Hall in Portland, Maine.

Authors are invited to submit an abstract of no longer than 300 words.

Deadlines for Submission

Abstracts due: June 30, 2022

Student submissions due: September 1, 2022
