

Scientific Literacy & the **COVID** Pandemic

**Wednesday, Oct. 26
12-1 p.m.**

For details and ways to attend
in person or virtually:

https://bit.ly/ScientificLit_1026

This event brings together an expert panel to explore the essentials of science literacy, identify roadblocks to overcoming the influence of emotion and confirmation bias in people's thinking about COVID-19, and offer recommendations to students, educators, and workers to address patients and colleagues who remain hesitant about the utility and efficacy of vaccination. **CMEs are available**

Presented by UNE CECE in collaboration with:

Members of CECE's Campus to Community Advisory Team, and co-sponsored by **MaineHealth Institute for Research and the Association of American Medical Colleges (AAMC)**

Competencies for your IP Honors Distinction Application: **Communication, Roles & Responsibilities**
