Altering Presentation Title text

The text below can be altered individually on each page by typing directly into the text box, or the same text can be added to all pages by following the instructions listed below.

1. In the PowerPoint ribbon, go to **Insert** and choose **Header and Footer**
2. The **Header and Footer** dialog box will appear.
3. At the bottom of the dialog box below **Footer** where it says **Modify with Insert > Header & Footer**, type in your desired footer text. **Select Apply to All**.

Indenting text and bullets

Using the **Bullet** icon is discouraged, as it will default to the built-in PowerPoint indent/bullet styles and will not make use of the custom Northern Light Health indent/bullet styles.

Instead, use the **Decrease/Increase List Level** buttons in the Home tab to toggle between different indent levels using the existing bullet examples in the content slides.

See [page 4](#) of this template for further instructions.
