4	Justification						
	Per UNE Policy on Distribution of F&A Recovery Funds, successful requests for RIF funds will be clearly written, describe in detail how the funds will be used, identify any other available institutional resources to help support the request, and most importantly, indicate how an award of funds will develop research capacity at UNE and/or improve the probability of future external awards to UNE. Any request to utilize RIF funds as hard dollar match or otherwise on a grant application shall also be made using this method, and shall be documented on the UNE pink sheet along with any other match commitments. Requests for RIF funds should initially be submitted concurrently to the Associate Provost for Research and Scholarship and the Director of Research Administration, who will obtain any other necessary approvals, track all requests and commitments, and notify the requestor of all approvals or denials.  All requests shall be accompanied with appropriate documentation, including quotes for purchase or repair. Travel requests shall include description of conference location, dates, and the nature of presentation (poster, paper, etc.). Describe what other resources have been sought for this purpose and what other funds are available. Partial funding from the requestor's college or an external source may strengthen the request. Please attach your budget justification and description to this application.
