## **Provost Mahon**

- Thanks everyone for their input on Refreshed Priority 3. I'll post Sheldon's refreshed compilation for your review and final edits. Deadline is Monday 5/1.
- We close to sign an MoU with JAX listing its online education/training modules through UNE CPS. It will give UNE the opportunity to increase its ability to reach national/international researchers. We work on the funding opportunities from the NIH/NCRR.
- Organizationally/structurally, time to work on graduate school, and think about the PhD program.
- I am on the planning committee of the UMaine IoM Biomedical Symposium in October. I presented 15 names as speakers. I will share more information soon.
